

+ Olde Bolhaar

Processes green waste from individuals and companies, produces circular raw materials and biomass for incinerators.

Olde Bolhaar collects green waste from municipalities, individuals and companies in agriculture, horticulture and forestry. We process the green waste supplied into high-grade compost. We then sell this eco-friendly soil improver, with RHP quality certification, to our customers in agriculture and horticulture.

The pruning waste we receive is turned into wood chips and wood shreds. These products are very well suited to generating heat and electricity in incinerators, but they are also perfect for laying rambling paths.

We work continually towards optimising the waste flows. This includes our own transport service for the collection and delivery of 'green waste flows'. But we also focus on refining and developing new recycling techniques.

COMPANY INFORMATION

Status:	Well established
Acreage:	4HA
Employees:	5

CIRCULAR ROLE

- Olde Bolhaar supplies industrial waste to SUEZ
- Olde Bolhaar supplies transport services to Primco
- Olde Bolhaar supplies biomass to Primco

CIRCULAR ROLE OUTSIDE INNOFASE:

- Olde Bolhaar supplies compost, wood chips, wood shreds and biomass to power plants as a fuel for renewable energy and heat.

Mutual cooperation leads to significant savings
